

DEPARTMENT OF THE AIR FORCE

HEADQUARTERS, 1130TH AEROSP TEC DEV & TNG GP (HQ COMD USAF)
EDWARDS AIR FORCE BASE, CA 93523

REPLY TO
ATTN OF: ATTG (Director of Support/277-3210) 15 May 1972

SUBJECT: Support Agreement, 2 July 1971, (as revised), Between
AFFTC and 1130 ATTG

TO: XOHT (Mr. Holtz)

1. As requested by your letter of 3 May 1972, this organization has made the required annual review of subject agreement.

2. Subject agreement should be revised to reflect the following change:

SAFETY (106X)

Host: Will support the tenant unit safety program.
Assist the tenant unit in investigating and reporting accidents/incidents when requested by the tenant unit commander.

Tenant: Will conduct its own flight, missile, explosives, and ground safety programs as required.
Request support from the host base expertise that exceeds the tenant unit capabilities.

(The above change is the result of a question raised recently by AFSC/IGFG representatives regarding the participation of the AFFTC explosives safety officer in 1130 ATTG safety programs. As this unit is required to conduct its own safety programs, the wording of the above change eliminates an existing disparity in the agreement.)

3. The estimated annual requirements in support of subject agreement are hereby revalidated. No major changes are anticipated for the next yearly period.

STAT

1. On 28 April 1972, [REDACTED] and I attended a meeting at the Edwards AFB Safety Office. This meeting was held as a result of a question raised by Lt Col J. Bergh and Mr E. D. Howell AFSC/IGFG concerning the participation of the local explosives safety officer in 1130th ATTG safety programs.
2. I stated that, due to our unique operations, the unit was required to conduct our own safety programs and that access to outsiders could not be tolerated even though the host-tenant agreement requires the host to conduct the various programs.
3. After considerable discussion Lt Col Bergh, Mr Howell, and Major Westcott, Director of Safety, suggested that the host-tenant agreement be revised to eliminate the now existant disparity. The following is the statement which is suggested and agreed upon by all present.

HOST: Will support the tenant unit safety program. Assist the tenant unit in investigating and reporting accidents/incidents when requested by the tenant unit commander.

TENANT: Will conduct its own flight, missile, explosives, and ground safety programs as required. Request support from the host base for safety expertise that exceeds the tenant unit capabilities.
4. Request your action to initiate the proposed change to the existant host-tenant agreement.
